Southern Arc Minerals will carry out exploration on 9,950 ha at East Elang

Oleh [admin](#)

Senin, 23 April 2007 08:34:42

Sumbawa Besar, Nusatenggaranews.com.-

After PT. Indo Energi Alam Raya (IEAR) gave their expose on yesterday Saturday, April 21, it was the turn of Southern Arc Minerals Inc. (SAMI) to do the same.

This activity unfolded at the Sumbawa Regency office for introducing the goals of this gold and copper mining company exploring on the mining project called "East Elang".

The aforementioned company will carry out investigations in order to ascertain the natural resource deposit located on the concession of 9,950 ha.

SAMI liaison Officer, Koesyono yesterday said the company's preparations are good in terms of budget, professionals, equipment, and such.

They, said Koesyono, already held the local mining rights from the Sumbawa Regent, however like the matter of PT. IEAR and PT. Sumbawa Duta Raya (SDR), SAMI still has not obtained the recommendation of the Governor of NTB as consideration for the Planology Directorate of the Forestry Department in the issuance of an exploration permit. "For exploration we still await the

Governor's recommendation," he stated.

In the difficult matter of this recommendation, Koesyono acknowledged the public has been inquiring when the company would go ahead with the investigations.

Based topographic maps published by the National Land Survey Coordination Body (Bakosurtanal) in Jakarta, a portion of PT. SAMI's concession area enters the Ropang Subdistrict's jurisdiction and a small part (180 Ha) enters into the Moyo Hulu Subdistrict.

Meanwhile, the head of the Sumbawa Regency Mining & Energy (Distamben) office, Ir. Iman Wahyuddin Rayes, acknowledged PT. SAMI's activities are not going to disturb the Labangka Kompleks project. "This project will go ahead simultaneously with mining," revealed Iman Wahyuddin in answer to the public's concerns regarding the Labangka Kompleks issue.

Moreover, added Iman, PT. SAMI's concessional area will not experience overlap with concessional areas of other investors such as PT. NNT.

Regarding the issue of the Governor's recommendation, Iman expect it to be in issued May 2007, however as much as there is genuine support on the part of the Assistent II and the NTB Provincial Mining Chief to support PT. SAMI.

He claimed it is not yet clear why there is a delay in issuing the Governor's recommendation. In fact, going ahead with the aforementioned investor's activity will have a positive impact on creating employment opportunities for the public in the improvement of the economy.

Currently there are 3 investors up to now who are awaiting the recommendation of the Governor of NTB, that is, PT. Sumbawa Duta Raya, PT. Indo Energi Alam Raya (IEAR), dan PT. Southern Arc Minerals (SAMI).(gaung)
