## Southern Arc Minerals Contract of Work Negotiating

### Team Set up by Sumbawa Barat Government.

**MinergyNews.Com, Sumbawa Barat** - The government of Sumbawa Barat Regency (SBR) has set up a negotiating team to carry out the studies for PT Southern Arc Minerals Inc's Contract of Work (PT. SAMI) before the aforementioned company implements its gold exploitation works in SBR.

The negotiating team is not only made up of members from the regional government, but also involved are the provincial and central governments.

Dinas Mining, Energy, Investment, and Environment office chief, Mahfud Jauhari, B.Sos., stated, the central government has already put forward seven names of those who will form members of the negotiating team, meanwhile those from the province have not yet been put forward.

The aforementioned negotiating team consists of 7 from the central government and 7 from the province. Meanwhile, it is definite that many more are from the SBR government so as to involve a number of public elements. "The team will be dominated by representatives of SBR, so it can be directly known what will become the company's obligations as well as its rights and exploitation plans, revealed Mahfud.

It is known that PT SAMI is currently carrying out exploration and investigations of mineral content. Mahfud hopes the negotiation team can, in due course, study the various issues that are required so that so that these [issues] can be put into the contract.
